VIRTUAL PANELS
BROCHURE
2024

VIRTUALLY CONNECTING INDUSTRY LEADERS

INTRODUCTION

Telecom Review has always been a pioneer in the digital media space.

Embracing digitalization has always been a key pillar of our vision and strategy. Building on our previous years' successes, we continue in our mission of connecting the industry's leading operators, vendors, ICT companies, governmental entities and consultants.

Our series of **virtual panels for 2024**, part of the **Telecom Review Group** activities, will be organized using video conferencing applications.

The numerous panels throughout the year will target our different ecosystems and markets, presenting a wide range of panelists moderated by industry experts.

The outcome of each panel discussion will be published in a special e-newsletter that will be sent to our large database of over **45,000**. This email blast will give participants, and the brands they are representing, great exposure.
